

Busy Bee and Furry Friend Families

Last month, we had the best time learning about tubes and tunnels. We talked about all the items that come in tubes and what we could do with tubes. This month we will be starting the "Building" unit. As we study buildings, we will talk about what buildings are made out of, how you build them and what we use them for. If you are out and about and see a cool building or any building your child likes, feel free to bring in a picture of it so we can show the class and discuss it.

Since the weather will be getting nicer, please make sure that your child has summer clothes in their cubbies in case of accidents/spills. Also, if you would like your child to wear sunscreen when we are outside, please bring some in and fill out the paperwork so we can apply it.

Special Announcement:

Share and Care will be **CLOSED** Monday, May 30th for Memorial Day.

If you have any other questions or concerns, please feel free to message us on brightwheel or talk to us at drop off/pick up.
