

JANUARY NEWSLETTER

Happy New Year!

Last month the kids had a lot of fun making arts and crafts and having their family trees all around. They truly enjoyed showing off their families and introducing everyone to us. This month we will be building on our knowledge of color, shapes, and sizes! We will be working on our fine motor skills by tracing shapes and cutting them out. We will be working on sequencing colors from dark to light and shapes large to small. The students will be working on classifying colors, which will lead them to learning about primary and secondary colors. The class will continue working on their letter recognition with word/sentence segmentations. We will also be incorporating lots of fun winter activities!

Birthdays!

- ***Emersyn!*** Jan,6
- ***Miles!*** Jan,24
- ***Jude!*** Jan,27
