**Ultimate Dance On The Move** has been serving the Chicagoland area since 2013 with their early childhood dance classes. We offer a fun and age-appropriate curriculum in dance styles of Ballet, Tap, Jazz & Hip-hop for ages 2-5 & Hip-hop for ages 6 & up. All instructors are trained with our online curriculum & have experience in the dance world leaving children with the technique and skills to continue into more advanced dance classes. **Classes are conveniently onsite of your child's daycare center/school** to accommodate for the busy family. Our classes include **class photos on our app** for parents to conveniently view from work/home, personalized **skill level updates** to see their child's progress, and **skill/dance practice videos** so parents can practice at home with their child.
